

26.02.2021

Dear all,

Here is your weekly piece of information to prepare for your Masterclass:

//////// CMS Masterclass notes //////////

Reminder: the version of the CMS masterclass is different from what we used in 2019 to enable the inclusion of 4-lepton events. To be sure you are sharing the correct version with students, please send them to <https://tiny.cc/imc-vid> (scroll down to "CMS WZH videos"). Also, please see the CMS 2020 documentation at <https://cern.ch/go/76BG>. About CIMA (<http://cern.ch/go/77kj>): please email Ken immediately if you have any problems. CIMA is generally running well but we need to quickly fix any possible glitches that might arise.

//////// Notices //////////

A few things:

Please remember that if you need to cancel participation in a Masterclass videoconference to let Uta and Ken know at least 24 hours beforehand.

The first MINERvA Neutrino Masterclass of 2021 is today.

The TRIUMF-based ATLAS Masterclass videoconference is now on the schedule at <http://tiny.cc/tmc2021>.

Kind regards,

Uta + Ken
