W2D2Memo 4   10 November 2020

Hello all,

This is the last W2D2 Memo of 2020! If it is your first, then it serves as your confirmation of registration. Speaking of that, registration is now closed. If you have a colleague that really, really wants to join, have them send me an email today.

Here is final checklist:

- We are less than two days from the big day!
- The press release is finally ready. The PDF version is on the W2D2 Homepage under "Get the Word Out". If you want to customize the press release, please let me know and I'll send you a Word version.
- *New feature:* Meet the Moderators in the Videcons page. We have a great moderation crew this year. Please take a look.
- Please check the W2D2 Schedule of Videoconferences one more time. Some changes have been made since last week and we want to be sure we are all OK with it.
- If you still need a videoconference test, email Ken.
- Zoom connections for World Wide Data Day, Thu 12 Nov, are on the W2D2 Zoom channel. The password is "dimuon". Please only give this information to students if they are connecting remotely.
- Google Meet connections are on the W2D2 GM channel. Teachers and moderators for these will receive invitations. They should give the URL to any students who are joining remotely but they are responsible for admitting students to the videocon.
- For all videoconferences, please mute unless you need to speak. We start with the moderators commenting on the global results. If anyone connecting has a question during this presentation, they should use the "hand-raising" feature in Zoom or indicate that they have a question in chat. (We will monitor this.) After the moderator discussion of results, we will ask for questions from each school in turn, so students should ask their questions then, whether remote or in class. Students should go close to the microphone to speak. Anyone may put a question or comment in chat at any time in the videocon.
- Please remember that we have resources to help you and your students to understand World Wide Data Day. Most are on the W2D2 Homepage. Scroll down and look under Resources. Beneath that, you will find an archive of Memos, including this one. "Intro" and "How to" videos are on the ATLAS and CMS pages. Please use them!
- Needless to say, through all of this, please obey the safety protocols of your school.
- Questions? Send them!

Now the fun begins!

All the best,

Ken
