

Big Analysis of Muons 2021

20 May 2021

Hello yet again,

This is the second email about Zoom, this time with connections for students. All student videoconferences for BAM will be webinars. This means that students will be muted but will be able to type questions via chat and a Q&A option. These will be answered live or by text. You can find the schedule of these on the [Timeline](#) but without links.

Here is the connection information...

- All three **CMS** webinars (13:00 UTC 24-26 May): ---, passcode ---
- All three **ATLAS** webinars (19:00 UTC 24-26 May): ---, passcode ---.

Please share this information with your students.

All the best,

Ken

P.S. See you in Teacher Q&A soon!
